

1 EDUCATION

- **Adarsha College of Engineering** Angul, India
Bachelor of Technology - Computer Technology
- **Adarsha College of Engineering** Angul, India
Diploma in Computer Science and Engineering

2 SKILLS SUMMARY

- **Languages:** Java, HTML, CSS, JavaScript, SQL, React, MongoDB
- **Frameworks:** Tailwind CSS, NodeJS, Express
- **Tools:** GIT, PostgreSQL, MySQL, SQLite, Firebase
- **Platforms:** Web, Windows
- **Soft Skills:** Team Coordination, Event Planning, Content Creation, Audience Engagement, Efficient Workflow

3 PROJECTS

- **ChatterBox** GitHub
Live Preview
 - **Created a real-time chat application using React.js, allowing users to send text messages and images to multiple recipients. Utilized Socket.io for seamless messaging updates.:**
Focused on a smooth user experience with real-time updates and a responsive design, providing an intuitive interface for enhanced communication.
 - **React's component-based structure ensured efficient performance and easy scalability for future enhancements.:**
Integrated MongoDB for data management, with a Node.js and Express backend providing robust support for real-time communication.
 - **Styled the app using Tailwind CSS and DaisyUI, providing a modern and user-friendly interface.:**
- **Tomato Food Ordering Application** GitHub
Live Preview
 - **Developed a restaurant food ordering platform using React.js and Tailwind CSS, enabling seamless ordering and secure payment via Stripe.:**
Implemented real-time order tracking, optimized for a responsive design across devices with secure user authentication.
 - **Utilized React's architecture and Tailwind's utility-first CSS for efficient UI design.:**
Backend powered by Node.js and MongoDB, ensuring smooth order processing and data management.
- **AI-powered Expense Tracker** GitHub
Live Preview
 - **Developed an AI-powered expense tracker using React.js, Tailwind CSS, and Google Gemini AI, providing smart categorization and analysis of expenses.:**
Leveraged Shadcn for advanced component design, enhancing user experience and interaction.
 - **Implemented dynamic data visualization to present financial trends, allowing users to track and manage their expenses with ease.:**
Utilized MongoDB for data management, ensuring secure and scalable backend integration.
- **Respawingalaxy** GitHub
Live Preview
 - **Developed a dynamic, mobile-first website showcasing gaming news, reviews, and community updates. The platform offers a sleek, interactive interface, enhancing user engagement.:**
Implemented React.js for dynamic content rendering, ensuring responsiveness across devices. Integrated API services for real-time content updates.
 - **Styled the application using Tailwind CSS, ensuring consistency and mobile-friendliness.:**
